PROCLAMATION.

JOHN BEVERLEY ROBINSON.

[L.S.]

VICTORIA, *by the Grace of God, of the United Kingdom of Great Britain and Ireland*  
QUEEN, *Defender of the Faith, &c., &c., &c.*

To Our Faithful, the Members elected to serve in the Legislative Assembly of Our  
Province of *Ontario*, and to every of you—GREETING :

*O. Mowat,* } WHEREAS it is expedient for certain causes and considera-  
Attorney-General. } tions to convene the Legislative Assembly of Our said  
Province, We do will that you and each of you, and all others in this behalf interested,  
on THURSDAY, the THIRTEENTH day of the month of JANUARY next, at OUR  
CITY OF TORONTO, personally be and appear for the DESPATCH OF BUSINESS, to  
treat, act, do and conclude upon those things which in Our Legislature of the Province  
of Ontario by the Common Council of Our said Province may by the favour of God be  
ordained. HEREIN FAIL NOT.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent,  
and the Great Seal of Our said Province of *Ontario* to be hereunto  
affixed: WITNESS, The Honourable JOHN BEVERLEY ROBINSON,  
LIEUTENANT-GOVERNOR of Our Province of *Ontario*, at Our Government  
House, in Our City of *Toronto*, in Our said Province, this EIGHTEENTH  
day of DECEMBER, in the year of Our Lord one thousand eight  
hundred and eighty, and in the Forty-fourth year of Our Reign.

By Command,

CHARLES T. GILLMOR,

Clerk of the Crown in Chancery.

3 O'CLOCK P.M.

This being the first day of the Second Session of the Fourth Legislature of *Ontario* for the Despatch of Business, pursuant to a Proclamation of the Honourable *John Beverley Robinson*, Lieutenant-Governor of the Province, and the House having met, His Honour entered the House, and, having taken his seat on the Throne, was pleased to open the Session by the following gracious Speech:—

*Mr. Speaker, and Gentlemen of the Legislative Assembly—*

It affords me much pleasure, on this first occasion since my appointment as Lieutenant-Governor, to meet the representatives of my native Province, and to welcome them to its capital in the discharge of their Legislative duties.

I congratulate you on the revival of commercial prosperity, the result of the abundant harvest of the past year, of the revival of trade abroad, and of the increased demand for lumber, the receipts from which source, I am happy to say, have considerably exceeded the estimate of last Session.

It is much to be regretted that the Dominion Government have taken no step to obtain, and have hitherto shewn no intention of seeking to obtain, from the Parliament of Canada legislation confirming the award determining the Northerly and Westerly Boundaries of Ontario, made two years ago by three most distinguished arbitrators chosen by the two Governments, and who had before them all the evidence obtainable from the most diligent researches both in America and Europe, or brought to light during the many discussions bearing on the subject that have taken place during the past century. The result of the inaction of the Dominion Government in this respect is to defer the settlement and organization of a large extent of country; to deprive the inhabitants of that district of those safeguards of peace and order, which they, in common with all others, are entitled to enjoy, and to withhold from the people of Ontario the benefits which the possession of that territory would afford.

It is obvious that the earliest possible construction of railway communication between the existing railway system of Ontario and the Canadian Pacific road, is of the very greatest importance to the interests of this Province. An appropriation having been made for this purpose by an Act of a former Session of the Legislature, a measure will be submitted to you for carrying out the object of the Act with the least possible delay.

The Commissioners appointed to inquire into matters connected with the agricultural industry of Ontario, have by close and unremitting attention to the duties assigned to them, collected a large amount of information of a most interesting character and of much value. The Evidence and Report of the Commissioners will be laid before you in the course of the Session. I trust that the publication of these documents will stimulate enterprise, and encourage a spirit of improvement among the farmers of the Province, and at the same time produce a favourable impression elsewhere of the openings which Ontario affords to the capital and energy of the intelligent and experienced agriculturist. I am sure you will agree with me that the Province is under no small obligation to those gentlemen who, as Commissioners, placed their services, without any pecuniary recompense, at the disposal of the Government, and will share the feeling of satisfaction with which I have observed, in how cordial a spirit the proceedings of the Commissioners have been regarded by the public.

The subject of constructing the new Provincial Buildings, required for the safe keeping of the public records, the due performance of the ever increasing business of the Departments, and the proper accommodation of the Legislature, and of the Provincial Library, as well as the safety and health of the members and other persons engaged in the public service, has received the earnest attention of the Government. Competitive plans were invited, and sixteen different designs, by as many competitors, were submitted. None of these designs were entirely satisfactory, but three of those which were considered to have most nearly complied with the conditions of the competition, were, under the terms of those conditions, secured for the Province; subsequently it was deemed advisable to permit the authors of the best of the three, and certain other competing architects on whose plans experts had reported most favourably, to modify and alter their plans

with a view to a reconsideration of their merits by the Government when so altered. Time has not yet sufficed for this to be done ; but I confidently anticipate that the result will be to secure the commencement in the coming spring, and the early completion, of buildings worthy of the Province, and at a cost not exceeding the amount already voted for that purpose by the Legislature.

The Reports of the several departments of the Public Service, will be laid before you. I am glad to find that the several Institutions under the management of the Government are in a state of satisfactory efficiency ; and that others to which Provincial aid is given, are respectively performing services to the community fully commensurate with the aid afforded them.

The Report of the Minister of Education, as usual, possesses deep interest, shewing, as it does, to what a high standard of excellence, as compared with other countries, the Educational system of Ontario has attained ; and I doubt not that you will agree with me, that no efforts should be spared to maintain it in the fullest state of efficiency. While marked improvement may be observed in elementary education, the expense of that branch has been less in the last three years than previously. Gratifying progress, too, has been made in the department of higher education.

I commend the very important subject of the Administration of Justice to your continued and careful attention. Profiting by the example of Great Britain and other States, in which the anomaly of two systems of pleading and practice in the Civil Courts has been abolished, and by other reforms effected in their judicature, a bill will again be laid before you for the purpose of consolidating the Superior Courts, establishing uniformity in pleading and practice, and making further provision for the due administration of justice.

Amongst the other measures to be submitted to you are, a bill relating to Railways, and making provision for the greater safety of railway employees and the public ; a bill for protecting the public interest in streams and rivers within the Legislative authority of the Province ; a bill giving increased stability to Mutual Insurance Companies ; and one dealing with the question of market fees, which have long been a source of complaint by the farmers of the Province.

In view of the many extensive and beneficial improvements in our laws effected since the Province obtained, thirteen years ago, control over its local affairs, and of the further legislation which will engage your attention during the present Session, I commend to your serious consideration the question whether the time has not come when the public interests may be sufficiently protected, and at the same time a considerable saving of expense be effected, by confining future legislation to every alternate annual Session, except in cases of special urgency.

The Public Accounts of Receipts and Expenditure for the past year, and the Estimates of moneys required for the services of the current year, will be laid before you. The Estimates have been prepared with every regard for economy consistent with the public interest.

I trust that the labours of the Session now commencing may, when brought to a close, reflect fresh honour on the wisdom and patriotism of our legislators, and prove permanently beneficial to all classes of our people.

His Honour was then pleased to retire.

The Debate was resumed, and the several paragraphs of the proposed Address having been read the second time were agreed to, and it was

*Resolved*, That the above Resolution be referred to a Select Committee composed as follows : the Attorney-General, and Messieurs *Pardee*, *Gibson (Hamilton)*, and *Dryden*, with instructions to prepare and report an Address to His Honour in conformity therewith.

The Attorney-General from the Select Committee, reported an Address which was read as follows :

To the Honourable *John Beverley Robinson*, Lieutenant-Governor of the Province of *Ontario*.

We, Her Majesty's dutiful and Loyal subjects, the Legislative Assembly of the Province of *Ontario*, humbly thank Your Honour for your gracious Speech at the opening of the Session, and reciprocate the expressions of pleasure felt by Your Honour, on this the first occasion since Your Honour's appointment as Lieutenant-Governor, at meeting the representatives of your native Province assembled in the discharge of their Legislative duties.

We rejoice in the fact that Your Honour is able to congratulate us on the revival of commercial prosperity, the result of the abundant harvest of the past year, of the revival of trade abroad, and of the increased demand for lumber ; and to be informed by Your Honour that the receipts from that source have considerably exceeded the estimate of last Session.

We agree with Your Honour that it is much to be regretted that the Dominion Government have taken no step to obtain, and have hitherto shewn no intention of seeking to obtain, from the Parliament of Canada legislation confirming the award determining

the Northerly and Westerly Boundaries of Ontario, made two years ago by three most distinguished arbitrators chosen by the two Governments, and who had before them all the evidence obtainable from the most diligent researches both in America and Europe, or brought to light during the many discussions bearing on the subject that have taken place during the past century ; the result of the inaction of the Dominion Government in this respect being to defer the settlement and organization of a large extent of country ; to deprive the inhabitants of that district of those safeguards of peace and order which they, in common with all others, are entitled to enjoy ; and to withhold from the people of Ontario the benefits which the possession of that territory would afford.

We agree with Your Honour that it is obvious that the earliest possible construction of railway communication between the existing railway system of Ontario and the Canadian Pacific road, is of the very greatest importance to the interests of this Province ; and are glad to learn that, an appropriation having been made for this purpose by an Act of a former Session of the Legislature, a measure will be submitted to us for carrying out the object of the Act with the least possible delay.

We thank Your Honour for the information that the Commissioners appointed to enquire into matters connected with the agricultural industry of Ontario, have, by close and unremitting attention to the duties assigned to them, collected a large amount of information of the most interesting character and of much value ; and that the Evidence and Report of the Commissioners will be laid before us in the course of the Session ; and we trust that the publication of these documents will stimulate enterprise, and encourage a spirit of improvement among the farmers of the Province, and at the same time produce a favourable impression elsewhere of the openings which Ontario affords to the capital and energy of the intelligent and experienced agriculturist ; while we cordially agree with Your Honour that the Province is under no small obligation to those gentlemen who, as Commissioners, placed their services, without any pecuniary recompense, at the disposal of the Government ; and share the feeling of satisfaction with which Your Honour has observed in how cordial a spirit the proceedings of the Commissioners have been regarded by the public.

We thank Your Honour for informing us that the subject of constructing the new Provincial Buildings, required for the safe keeping of the public records, the due performance of the ever increasing business of the Departments, and the proper accommodation of the Legislature, and of the Provincial Library, as well as the safety and health of the members and other persons engaged in the public service, has received the earnest attention of the Government ; that competitive plans were invited, and sixteen different designs, by as many competitors, were submitted ; but that none of these designs were entirely satisfactory, and that three of those which were considered to have most nearly complied with the conditions of the competition, were, under the terms of those conditions, secured for the Province ; that subsequently it was deemed advisable to permit the authors of the best of the three, and certain other competing architects on whose plans experts had reported the most favourably, to modify and alter their plans with a view to a reconsideration of their merits by the Government, when so altered ; that time has not yet sufficed for this to be done ; but that Your Honour confidently anticipates that the result will be to secure the commencement in the coming spring, and the early completion, of buildings worthy of the Province, and at a cost not exceeding the amount already voted for that purpose by the Legislature.

We shall be glad to receive the Reports of the several departments of the Public Service, and to find that the several Institutions under the management of the Government are in a state of satisfactory efficiency ; and that others to which Provincial aid is given, are respectively performing services to the community fully commensurate with the aid afforded them.

We do not doubt the Report of the Minister of Education, as usual, possesses deep interest, and shews to what a high standard of excellence, as compared with other countries, the Educational system of Ontario has attained ; and we agree with Your Honour that no efforts should be spared to maintain it in the fullest state of efficiency ; and we are glad to learn that while marked improvement may be observed in elementary education, the expense of that branch has been less in the last three years than previously, while gratifying progress, too, has been made in the department of higher education.

We beg to assure Your Honour that the very important subject of the Administration of Justice shall receive our continued and careful attention, and are pleased to know that, profiting by the example of Great Britain and other States, in which the anomaly of two systems of pleading and practice in the Civil Courts has been abolished, and by other reforms effected in their judicature, a bill will again be laid before us for the purpose of consolidating the Superior Courts, establishing uniformity in pleading and practice, and making further provision for the due administration of justice.

Our best attention shall be given to the bill relating to Railways, and making provision for the greater safety of railway employees and the public; to the bill for protecting the public interest in streams and rivers within the Legislative authority of the Province; to the bill giving increased stability to Mutual Insurance Companies; and to one dealing with the question of market fees, which have long been a source of complaint by the farmers of the Province, which measures, Your Honour states, will be submitted to us.

In view of the many extensive and beneficial improvements in our laws effected since the Province obtained, thirteen years ago, control over its local affairs, and of the further legislation which will engage our attention during the present Session, we shall give our serious consideration to the question whether the time has not come when the public interests may be sufficiently protected, and at the same time a considerable saving of expense be effected, by confining future legislation to every alternate annual Session, except in cases of special urgency.

We thank Your Honour for informing us that, the Public Accounts of Receipts and Expenditure for the last year, and the Estimates of moneys required for the services of the current year will be laid before us, and that the estimates have been prepared with every regard for economy consistent with the public interest.

We trust with Your Honour that the labours of the Session now commencing may, when brought to a close, reflect honour on this House, and prove permanently beneficial to all classes of our people.

The Address, having been read the second time, was agreed to.

*Ordered*, That the Address be engrossed, and presented to His Honour by such Members of this House as are of the Executive Council.

On motion of Mr. *Wood*, seconded by Mr. *Pardee*,

*Resolved*, That this House will, To-morrow, resolve itself into the Committee of Supply.

*Resolved*, That this House will, To-morrow, resolve itself into the Committee of Ways and Means.

The House then adjourned at 5:10 p.m.

Mr. Deroche, from the Committee on Standing Orders, presented their Third Report, which was read as follows :—

The Committee have carefully considered the following Petitions, and find the Notices in each case sufficient :—

Of the *Credit Foncier Franco-Canadien* Company, praying that an Act may pass to empower them to carry on business in *Ontario*.

Of the *Whitby, Port Perry and Lindsay* Railway Company, praying that an Act may pass to extend the time for constructing portions of their line.

The Committee have also had before them the Petition of the Honourable *Christopher Finlay Fraser*, Commissioner of Public Works for the Province of *Ontario*, praying that an Act may pass to close a certain road allowance between the Township of *Kingston* and the Village of *Portsmouth*, and find that notice of the intended application to Parliament was first inserted in the *Ontario Gazette* on 1st January instant, and thereafter in the issues of the *Gazette* of dates 8th, 15th, and 22nd January instant; that notice of the said intended application was also inserted in the *Kingston Daily Whig* of dates 7th, 14th, and 21st January instant, covering a period of four weeks in each of the said publications. The Committee, deeming that the legislation sought for is in the public interest, and that sufficient notice has been given to all parties interested to become aware of the matter, recommend the suspension of the Rule requiring six weeks' notice in this case.

The Committee have also had before them the Petition of the *Victoria* Rolling Stock Company, praying that an Act may pass to empower them to issue negotiable securities, and find that notice of such intended application to Parliament has been given for a period of six weeks in the *Ontario Gazette*, and in the *Toronto Globe*, by the *Canadian* Rolling Stock Company for the above mentioned power. Evidence has been heard before the Committee to shew that the *Victoria* Rolling Stock Company, and the *Canadian* Rolling Stock Company are one and the same Company. Application was made to incorporate this Company under the *Ontario Joint Stock Companies' Letters Patent Act*, and before the issue of the Letters Patent exception was taken to the title *Canadian*, whereupon, with the consent of the petitioners, the name *Victoria* was substituted for that of *Canadian*; that before the issue of the Letters Patent and the consequent change of name, the petitioners had inserted the before mentioned notices in the *Ontario Gazette* and in the *Toronto Globe*, and deemed it unnecessary to change the same. In view of the foregoing facts, the Committee consider the notices sufficient, and beg leave to report the said Petition.

The Committee considering that the foregoing notices have given sufficient publicity of the matter recommend the suspension of the Rule in this case.

The Committee have also had before them the Petition of *St. Andrew's Church, East Oxford*, praying that an Act may pass to vest the *St. Andrew's Church* property in the Town of *Woodstock* in Trustees, and find that notice of the intended application was published for a period of six weeks in the *Ontario Gazette*, and also for a period of four weeks in the *Woodstock Sentinel-Review*. The Committee, considering this a matter of purely local importance, are of the opinion that sufficient notice has been given to all parties interested, and therefore recommend the suspension of the rule in this case.

The Committee have also carefully examined the Petition of the City Council of *Kingston*, praying that an Act may pass to remove doubts respecting the validity of a by-law, the Committee find that notice of the application was first published in the *Ontario Gazette* on the 15th January instant, and is now current, and that a similar notice was published in the *British Whig* on the 12th, 13th, 15th, 17th, 18th, 19th, 21st, 22nd and 24th days of January instant, and is now current, also that a similar notice was published in the *Daily News* on the 7th, 8th, 10th, 11th, 12th, 13th, 14th, 15th, 17th, 18th, 19th, 20th, 21st, 22nd, 24th, and 25th, days of January instant, and is now current, the said last mentioned newspaper being published in the City of *Kingston*. The Committee have also had evidence before them to shew that the object of the proposed legislation is very generally known and approved of in the said City. The Committee therefore recommend that the Rule be suspended in this case.

The Committee have also carefully examined the Petition of the *Hamilton and North-Western Railway Company*, praying that an Act may pass to authorize the said Company to issue additional bonds. The Committee find that notice of the said intended application has been published in the *Ontario Gazette* for a period of six weeks; also, that a similar notice was published in the *Hamilton Times* on the 27th December, 1880, and has appeared daily in the said paper from that date to the present, wanting but one insertion to complete the period of six weeks as required by the Rule of the House; The Committee also find that a similar notice was published in the *Grand River Sagem, Canadian Champion, Northern Advance, Norfolk Reformer, and Brampton Times*, and that instructions were given to the proprietors of the said papers to publish the said notice six successive times. The Committee deeming the above publications sufficient, recommend the suspension of the Rule in this case.

The Reports were then read by the Clerk at the Table, as follow :—

OSGOODE HALL,  
31st January, 1881.

We, the undersigned Commissioners have examined the Bill marked No. 1 to authorize the Trustees of *St. Andrew's Church, Williamstown*, to sell certain land, and have the honour to report that this Bill seems to us to be free from the objections to Bills introduced in former Sessions of the Assembly for the sale of the same lands, and we are of opinion that it is reasonable that the proposed Bill should pass into law with an addition such as we have marked in the margin, providing for the investment of the proceeds of the sale, and the application of the annual income only for the benefit of the minister for the time being.

J. G. SPRAGGE, C.  
W. PROUDFOOT, V. C.

To *Charles T. Gillmor, Esq.*,  
Clerk of the Legislative Assembly.

TORONTO, 2nd February, 1881.

SIR,—The Chief Justice of the Common Pleas has the honour to acknowledge the receipt of your communication of the 28th of last month, which he found yesterday at *Osgoode Hall*, with the accompanying Petition of the Trustees of the *Union Church at Port Colborne*, and the Bill (No. 3), founded thereon for the sale of the property therein mentioned.

We, the undersigned, have perused the Bill and, presuming the allegations contained in the preamble to be proved to the satisfaction of the House, it is reasonable the said Bill should pass into a law, and we are of opinion the provisions of the Bill are proper for carrying the purposes into effect.

We have the honour to be, Sir,  
Your most obedient servants,

ADAM WILSON, *C. J. C. P.*  
J. D. ARMOUR, *J. C. P.*

P.S.—We should have noted above that our opinion is based upon the assumption that there is nothing contained in the grant of the land to the original grantees which would make the sale of it, as prayed for, prejudicial to the rights of the grantors, or repugnant to the purposes for which it was given.

ADAM WILSON, *C. J. C. P.*  
J. D. ARMOUR, *J. C. P.*

To *Charles T. Gillmor, Esq.*,  
Clerk, Legislative Assembly, *Toronto*.

TORONTO, 2nd February, 1881.

SIR,—The Chief Justice of the Common Pleas has the honour to acknowledge the receipt of your communication of the 28th of last month addressed to him, which he found at *Osgoode Hall* yesterday, and also the accompanying Petition of the Rector and Churchwardens of *St. John's church* in the Township of *London*, and the Bill (No. 11) founded thereon, respecting the sale of the rectory house and site belonging to the said church which it is desired should be made.

We, the undersigned, have perused the Bill and, presuming the allegations contained in the preamble to be proved to the satisfaction of the House, it is reasonable—subject to

the observation made herein—that the said Bill should pass into a law, and we are of opinion the provisions of the Bill are proper for carrying the purposes into effect.

The observation we have referred to is, that the petition and preamble of the Bill assign no reason why the present rectory and site should be sold. The petition merely states that “the petitioners are desirous of selling” the same “and with the proceeds derived therefrom to build a new rectory house on a site of about two acres to be purchased or procured by the vestry of the church in or near the Village of *St. John* in the Township of *London*.”

The preamble does not state more than has just been set out.

It may be quite proper this sale should be made, and the proceeds of it so applied, but the question still presents itself, why should it be done? There is no doubt some good reason for it—as that the building is old and it would be unprofitable or useless to repair it, or that the situation of the rectory house is not as convenient as it would be if it were changed to the proposed site, or some other valid and satisfactory ground. That reason may be proved before the Committee of the House.

We merely point out that the fact that the “petitioners are desirous of selling their property” is, if a reason, not a satisfactory reason in our opinion to support the Petition before the House.

We have the honour to be, Sir,  
Your most obedient servants,

ADAM WILSON, *C. J. C. P.*  
J. D. ARMOUR, *J. C. P.*

To *Charles T. Gillmor, Esq.*,  
Clerk, Legislative Assembly,  
*Toronto*.

OSGOODE HALL,  
TORONTO, 2nd February, 1881.

The undersigned Commissioners to whom the Bill (No. 29), headed “An Act to vest in the newly appointed Trustees of the Marriage Settlement of *B. H. Dixon*, the property therein comprised, and to authorize the sale and leasing thereof,” beg leave to report that in their opinion, presuming the allegations contained in the preamble to be proved to the satisfaction of the House, it is reasonable that such Bill pass into law.

S. H. BLAKE, *V. C.*

To *Charles T. Gillmor, Esq.*,  
Clerk, Legislative Assembly,  
*Toronto*.

OSGOODE HALL, 31st January, 1881.

We, the undersigned Commissioners, to whom has been referred Bill (No. 15), intitled “An Act to transfer the securities of the *Anglo-Canadian* Mortgage Company to the *Dominion* Securities Company (Limited),” as also a Petition of holders of debentures of the *Anglo-Canadian* Mortgage Company opposing the Bill, have the honour to report:—

That no Bill, authorizing the transfer of the property and securities of the *Anglo-Canadian* Mortgage Company to any other Company, should be passed without the consent of the holders of the debentures of the *Anglo-Canadian* Mortgage Company, and, therefore, it is not reasonable that the Bill, in its present shape, should become law.

That the mode proposed by the debenture holders in their Petition of vesting the assets of the *Anglo-Canadian* Company in Trustees to be applied in the manner specified in the prayer of their Petition, seems to us a mode that might properly be embodied in a law.

But we respectfully submit that the Bill is not an Estate Bill, in the sense intended by the Rule of the House (No. 62), and that the question whether it is reasonable that it do pass into a law, is one depending upon general principles of legislation, and not one proper to be answered by us as Commissioners of Estate Bills.

PRAYERS.

Mr. Speaker informed the House, That the Clerk had received from the Judges appointed to enquire into and report on Estate Bills, their Report in the following case:—

Bill (No. 36), To enable the Trustees of *Bethel Congregation*, of the Town of *Orangeville*, to sell certain land.

OSGOODE HALL,

8th February, 1881.

The undersigned, two of the Commissioners appointed under 34th *Victoria*, c. 7, to report on Estate Bills, beg to report in reference to the above Bill No. 36:—

That, assuming the trusts in the Deed from *Orange Lawrence*, referred to in the Bill, to be confined to those set forth in the preamble, the General Act of *Ontario*, relating to lands held by Trustees for the use of a congregation or religious body, would seem to authorize a sale of lands no longer required for the purposes mentioned in the Trust, and this right is not interfered with by the Act of 1874, under the provisions of which the *St. Andrew's Congregation* united with the other congregation referred to in connection with the Presbyterian Church in *Canada*.

Whilst, therefore, no legislation is probably required, we see no objection, if the parties desire it, to this Bill passing into a law, and its provisions, in our opinion, are sufficient for carrying its purposes into effect, but we beg to call attention to a misdescription in the preamble of the Bill, in the style of the Church, which is correctly described in the Petition as *Bethel Congregation* in connection with the Presbyterian Church of *Scotland*.

We have accordingly, in pursuance of the directions contained in Rule 62, signed the Bill, and beg to return it, with the Petition on which it is founded.

#### *Report of Sub-Committee.*

The Sub-Committee appointed to consider and report upon certain proposed amendments to the Ditching and Watercourses Act, beg to report :—

That, having considered with some care the various provisions of the Act as consolidated in the Revised Statutes of Ontario, the amendments made thereto in 1878, 1880, and the several proposed amendments now before the Committee, are of opinion that many and important amendments can and ought to be made to the said Act in the direction of extending its scope and defining more clearly the power and duty of those invoking and enforcing the provisions ; but in view of the inconvenience often experienced by such persons in procuring the several statutes, and of properly applying the several amendments, do not think it desirable to multiply these difficulties by making further amendments to the present Act, and recommend that the Government, at the next session, take charge of the legislation respecting “Ditching Watercourses,” repeal the present Act and several amendments thereto, and re-enact the same in consolidated form, with such amendments as may be deemed advisable, and in view of such legislation, suggest the following as an outline of such measure :—

1. That any person requiring an outlet may notify the several owners of land through which it is necessary to procure such outlet, so as to give to each of such owners a sufficient outlet for such continued drain.

2. That the fence-viewers notified or appointed by the Judge, as the case may be, shall be liable to a penalty for non-attendance, except for good cause.

3. That the fence-viewers, having examined the proposed site of drain, heard the evidence of all witnesses, etc., shall make their award in writing, of which a form shall be appended to the Act, in which they shall clearly define and locate the commencement of said drain, where it shall terminate, and the several portions to be opened up by the several persons interested, each portion also being clearly defined, the time within which each portion shall be constructed, the amount of their fees, and by whom to be paid, with power to adjourn, direct the notification of others whom they deem interested, and where thought necessary, embody them in the award.

4. That the award shall be filed, as at present, with the Clerk of the Municipality, and that any of the parties may have the right of appeal, as at present.

5. That in case of appeal the Clerk of the Division Court where tried shall certify to the Clerk of the Municipality the judgment of the Court, and unless the award is wholly set aside the reformed award shall thereafter be considered the award of the fence-viewers.

6. That at the expiration of the time for appeal, or after appeal, as the case may be, the Council of the Municipality shall pay to the fence-viewers their fees (unless the award is set aside without fees to them), if not theretofore paid by the party or parties directed by the award to pay the same, the Clerk shall, unless sooner paid by such person or persons, add the same to the Collector's roll as a charge against the land of such person or persons, with such witness fees and other expenses as the fence-viewers had directed to be paid by them to be collected as ordinary municipal taxes.

7. That the fence-viewers, or one of their number, chosen by them, shall inspect the said drain at the expiration of the time fixed by the award for its completion, and if any portion or portions are not constructed, or not wholly completed, shall after proper notices in writing have been posted up, sell the said portion or portions or the uncompleted portion or portions of such drain in separate parcels to the lowest bidder, they taking such security for its completion as may be deemed sufficient, and when reported as complete shall again inspect the same, and if approved and accepted shall certify the completion of such portion or portions to the Clerk of the Municipality with the name of the person who completed the same, the amount to which he is entitled, and the amount of any additional fees of the fence-viewers or fence-viewer, whereupon the Council shall pay to fence-viewers their additional fees, and the Clerk shall add such amount and fees (if not sooner paid) to the Collectors roll as a charge against the lands of the person who was awarded or adjudged to pay the same, with ten per cent. added thereto, and the same shall be collected as municipal taxes, and when collected shall be paid over to the person in whose favour the amount named in the certificate of the fence-viewer or fence-viewers including any interest which may have been added under the provisions of the Assessment Act. The above mode of collection to be substituted for the present right of action in Division Court for the recovery of the same.

8. For other details of such a proposed Act we would refer to the Act and amendments at present in force and the several draft bills indicating the direction in which further amendments are sought without committing ourselves to such suggestions.

Mr. *Pardee*, from the Standing Committee on Railways, presented their Fourteenth Report, which was read as follows:—

And it was,

*Resolved*, That this House deeply regrets that,—notwithstanding the unanimous Award made on the 3rd August, 1878, by the Arbitrators appointed by the joint and concurrent action of the Government of *Canada* and the Government of *Ontario* to determine the Northerly and Westerly boundaries of this Province,—no Legislation has been submitted by the Government of *Canada* to the Dominion Parliament for the purpose of confirming that Award, nor has the validity of the Award yet been recognized by the Government of *Canada*.

*Resolved*, That the omission of the Government and Parliament of *Canada* to confirm the Award is attended with grave inconvenience, has the effect of retarding settlement and municipal organization, embarrasses the administration of the laws, and interferes with the preservation of the peace, the maintenance of order, and the establishment of good government in the northerly and north-westerly parts of the Province of *Ontario*.

*Resolved*, That it is the duty of the Government of *Ontario* to assert and maintain the just claims and rights of the Province of *Ontario* as determined by the Award of the Arbitrators; and this House hereby re-affirms its determination to give its cordial support to the Government of *Ontario* in any steps it may be necessary to take to sustain the Award, and to assert and maintain the just claims and rights of the Province as thereby declared and determined.

The Order of the Day for the third reading of Bill (No. 102), For protecting the Public Interest in Rivers, Streams and Creeks, having been read,

Mr. *Meredith* moved, seconded by Mr. *Morris*,

That while this House is willing to pass such enactments as may be necessary for the protection of the public interests in Rivers, Streams and Creeks, it is of opinion that the Bill is calculated to interfere with important private interests, without making adequate compensation for such interference, and is therefore opposed to sound principles of legislation, and calculated to form a dangerous precedent, and ought not, as now framed, to become law.

(2) The *Stratford and Huron* Railway Company, from *Harriston* to *Warton*, a distance of about sixty-two miles, at the rate of one hundred and fifty-three dollars and seventy-five cents per mile per annum, payable half-yearly for twenty years.

(3) The *Georgian Bay and Wellington* Railway Company, from *Mount Forest* to *Durham*, a distance of about sixteen miles, at the rate of one hundred and fifteen dollars and thirty-two cents per mile per annum, payable half-yearly for twenty years.

The payment of such aid under this Resolution shall be computed in manner following, that is to say :—

(b) And if the portion for which the payment is made has been completed between the first day of July and the thirty-first day of December, the payments shall be computed as commencing on the first day of July of the preceding year.

(1) The Lieutenant-Governor in Council may require any railway company so aided, or any railway company formed by an amalgamation of any company or companies, aided under this Act, with any other railway company or companies which shall have received aid from Provincial funds, to enter into an agreement or agreements with any other railway company or companies, containing such terms and details as the Lieutenant-Governor in Council may approve of, in order to secure running powers, or rights of user to such company or companies over the line or portion of line of railway of the company aided under this Resolution, or former Acts, or in the discretion of the Lieutenant-Governor in Council, for the haulage thereover of the cars and traffic of such other company, or companies upon such terms as, in default of agreement between the respective companies, may be settled upon by the Lieutenant-Governor in Council.

(2) No payment shall be made to any of the said companies in respect of the said grants in aid for any portion of their Railway, until the Commissioner of Public Works shall have reported to the Lieutenant-Governor in Council that such Company has completed the portion of its road in respect of which payment is to be made (including such sidings and station-houses as the Commissioner may think necessary for the accommodation of the public), within the period for completing the Railway or portion thereof named in the Acts relating to the company, or such other period as may by any other Act be fixed for such purpose.

(3) Payments may be made as portions of the Railway, not less than ten continuous miles, are completed as aforesaid ; and in cases where the whole distance aided is less than ten miles, then for such distance.

(4) After a company has complied with the conditions necessary, and the Commissioner has reported as aforesaid, scrip or certificates may be issued for, and in respect of the said grant ; and when signed by the Treasurer of this Province and the Accountant in his department, and countersigned by the Auditor, every such certificate shall be valid and binding on the Province, according to its tenor and effect ; and it shall not be necessary for any transferee, in good faith, of such certificate to inquire into, or obtain proof of any facts stated therein, all of which shall be deemed conclusive as against the Province, in favour of such transferee.

information as from time to time may be required from them by the Commissioner after completion of the Railway.

(6) The location, grades, the widths and slopes of cuttings and embankments, the plans of bridges, culverts, buildings, and other structures, the weight and section of iron rails, and other details of proposed construction of the Colonization Railways hereinafter mentioned, shall be subject to inspection and approval by the Government Engineer, before the commencement of the works, as well as after completion.

*May it please your Honour:*

We, Her Majesty’s most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session Assembled, approach Your Honour at the close of our labours with sentiments of unfeigned devotion and loyalty to Her Majesty’s person and Government, and humbly beg to present for Your Honour’s acceptance a Bill intituled “An Act for Granting to Her Majesty certain sums of money to defray the expenses of Civil Government for the year 1881, and for other purposes therein mentioned,” thus placing at the disposal of the Crown the means by which the Government can be made efficient for the service and welfare of the Province.

To this Bill, the Royal Assent was announced by the Clerk of the Legislative Assembly, in the following words:—

“His Honour the Lieutenant-Governor doth thank Her Majesty’s dutiful and loyal subjects, accept their benevolence, and assent to this Bill in Her Majesty’s name.”

His Honour was then pleased to deliver the following Speech:—

*Gentlemen of the Legislative Assembly:*

In discharging you from further attendance at the present time to your Legislative duties, I have to thank you for the careful and laborious attention you have bestowed upon the large amount of business that has been brought before you.

I shall not fail to call the attention of the Dominion Government to the resolutions in which you have once more protested against the delay that has taken place in the recognition and confirmation of the Award whereby, so long since as the third day of August, 1878, the northerly and westerly boundaries of Ontario were determined, and re-affirmed your determination to give your cordial support to my Government in any steps it may be necessary to take to sustain the Award, and to assert and maintain the just rights and claims of the Province.

The legislation of the Session includes measures of much interest and importance, and which I have no doubt will be found by experience to conduce largely to the welfare of the people.

The Act consolidating the Superior Courts of Law, establishing a uniform system of pleading and practice, and making further provision for the administration of justice, marks a new era in the history of our judicature, and will, while simplifying legal procedure, render justice more readily-accessible to all classes of suitors.

I trust that the Act giving greater efficiency to the law against the illicit sale of intoxicating liquors will prove effectual in suppressing practices which are inevitably attended with the most vicious and demoralizing associations.

The Act to make provision for the greater safety of Railway Employees and the Public will, I hope, prove effectual in protecting from some dangers, to which they have been hitherto exposed, a large number of persons whose vocation is attended with many unavoidable hardships, and in the faithful discharge of whose duties every one has a large interest.

The Acts for protecting the public interest in Rivers and Streams, and for the regulation of Timber Slide Companies, will remove some serious difficulties connected with the operations of the lumbering industry; while those amending the Municipal and Assessment Laws, and the School Law, and giving increased efficiency to the Provincial Mutual Insurance Companies, and other measures to which I have now assented, as well as the numerous Private Acts by which the Session has been distinguished, sufficiently attest the industry and practical experience of the representatives of the people in matters affecting their varied social and material interests.

---

I have observed with much pleasure that you have, as supplementary to previous grants to railways, voted moneys in aid of certain lines the circumstances of which entitle them to special consideration at your hands.

The measure by which the grant in aid of a railway to connect the existing *Ontario* lines with the *Canadian Pacific* Railway has been made applicable to an extension of such a road to *Sault Ste. Marie* gives countenance and support to an undertaking nothing less than national in its extent and character, while tending largely to facilitate the settlement of undeveloped sections of the Province, and to afford much-needed facilities of communication to our fast-growing and industrious communities.

I thank you for the liberality you have shewn in voting the supplies necessary for the public service. They will be expended with all possible regard for economy combined with efficiency.

I trust that all happiness and prosperity may attend you until I again have the pleasure of inviting your advice and assistance in the conduct of public affairs.

The Provincial Secretary then said :—

*Mr. Speaker, and Gentlemen of the Legislative Assembly :*

It is His Honour's will and pleasure that this Legislative Assembly be prorogued ; and this Legislative Assembly is accordingly prorogued.
